

APPENDIX A-189

PSEUDO SOURCE OF SUPPLY CODES

1. Number of characters: Three.
2. Type of code: Alpha/Numeric.
3. Explanation: The Pseudo Source of Supply (SOS) Code is used to reflect whether the SOS is either centralized or decentralized. This code is also used to indicate to the Defense Automatic Addressing System (DAAS) the type of update action to be taken on the SOS maintained by DAAS.
4. Source: DoD 4100.39-M, Volume 10, Table 110.
5. The following codes are assigned:

<u>CODE</u>	<u>DESCRIPTION</u>
XXX	Inactivated Item of Supply: An NSN item of supply for which a withdrawal of interest action has been processed and there are no longer any materiel managers or registered users recorded against this item in the DLSC Total Item Record (TIR). Items which have been processed as inactivated items of supply.
XZZ	Delete an SOS for an item which had been recorded in error for which there is no applicable SOS. When an item is reassigned from an IMM to a Service and no responsibility is retained by the IMM for any Service.
D9_	DLA decentralized management for DoD activities and civil agencies.
XDG	GSA decentralized management for DoD activities.
XFG	GSA centralized management (stocked) for civil agencies.
XFV	VA centralized management (stocked) for civil agencies.
